Toxic Substances. The Toxic Substances Control Act (TSCA), effective January 1, 1977, regulates the manufacturing, importation, processing, distribution in commerce, use or disposal of any chemical substances or mixtures that are broadly defined in Section 3 of TSCA. Section 3 specifies that certain substances are excluded from the definition of "chemical substance" based upon their use. These substances include, but are not limited to, foods, drugs, cosmetics, and active ingredients in pesticides. Importations will not be released from Customs custody unless proper certification is presented to Customs that the import "complies with" or "is not subject to" the requirements of the Toxic Substances Control Act, or if it is already identified as a food, drug, or active pesticide ingredient. For further information from EPA, call the TSCA Assistance Information Service, Tel. 202.554.1404.

More information about the TSCA can be found at Environmental Protection Agency (EPA) website address: <http://www.epa.gov/Region5/defs/html/tsca.htm>

Assistance in determining whether a chemical substance is on the TSCA Inventory is available on a fee basis from at least two organizations: the Chemical Abstracts Service (CAS) and Dialog. To request assistance; phone CAS at (800) 848-6538 or Dialog at (800) 334-2564. Other companies may offer similar service in the future; contact [tsc-hotline@epa.gov](mailto:tsc-hotline@epa.gov) or at (voice) 222-554-1404, (fax) 202-554-5603 for an up-to-date list.

Toxic Substances. The Toxic Substances Control Act (TSCA), effective January 1, 1977, regulates the manufacturing, importation, processing, distribution in commerce, use or disposal of any chemical substances or mixtures that are broadly defined in Section 3 of TSCA. Section 3 specifies that certain substances are excluded from the definition of "chemical substance" based upon their use. These substances include, but are not limited to; foods, drugs, cosmetics, and active ingredients in pesticides. Importations will not be released from Customs custody unless proper certification is presented to Customs that the import "complies with" or "is not subject to" the requirements of the Toxic Substances Control Act, or if it is already identified as a food, drug, or active pesticide ingredient. For further information from EPA, call the TSCA Assistance Information Service, Tel. 202.554.1404.

More information about the TSCA can be found at Environmental Protection Agency (EPA) website address: <http://www.epa.gov/Region5/dfs/html/tsc.htm>

Assistance in determining whether a chemical substance is on the TSCA Inventory is available on a fee basis from at least two organizations: the Chemical Abstracts Service (CAS) and Dialog. To request assistance; phone CAS at (800) 848-6538 or Dialog at (800) 334-2564. Other companies may offer similar service in the future; contact [tsc-hotline@epa.gov](mailto:tsc-hotline@epa.gov) or at (voice) 222-554-1404, (fax) 202-554-5603 for an up-to-date list.
